Eminent Doctors Praise Its Ingredients.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator * * * makes for normal activity of the entire reproductive system." He continues "In Helonias we have a medicament which more fully answers the above purposes *than any other drug with which I am acquainted.* In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhœa; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys; menorrhagia (flooding) due to a weakened condition of the reproductive system; amenorrhœa (suppressed or absent monthly periods), arising from or accompanying an abnormal condition of the digestive organs and anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions * * * and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, *there is no medicine in use about which there is such general unanimity of opinion.* It is *universally* regarded as the tonic useful in all debilitated states."

Prof. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhœa (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named indients and cures the diseases for which y are recommended.

CABIN JOHN BRIDGE.

The name "Jefferson Davis" will probably soon be restored to that greatest of all single stone arches, Cabin John Bridge, an arch spanning a picturesque gorge in the upper Potomac Valley, seven miles west of Washington. This arch supports the aqueduct through which the water supply of Washington flows, and it also serves as a highway bridge on that much traveled way, the Conduit road. The removal of Jefferson Davis's name from this magnificent arch has been a scandal since the civil war. The mutilation of the arch has been commented on a million times by a million persons. Although the subject is an old one, yet the true narrative of the mutilation has only recently been told. The erasure has been variously charged to Gen. Montgomery C. Meigs, chief engineer of the Washington Aqueduct, and to Edwin M. Stanton, secretary of war. Neither of these was responsible. The order for the erasure of the name was given by Caleb R Smith, secretary of the interior, in June, 1862.

Recently Wm. R. Hutton, who was an engineer in the aqueduct construction, and finally chief engineer of the work, has given the following account of the mutilation.

"In June, 1862, at the request of the secretary of the interior, Caleb R. Smith, to whose department the aqueduct had just been transferred, I accompanied the secretary and a number of members of Congress to inspect the aqueduct by way of the canal. Opposite Cabin John several of the party disembarked and walked to the bridge for a nearer view. Returning in hot haste, Galusha Grow, a member of Congress from Pennsylvania, said: Do you know that rebel Meigs has put Jeff Davis's name on the bridge?" Turning to me the secretary said: "The first order I give you is to cut Jeff Davis's name off the bridge." A few days later I was appointed chief engineer of the aqueduct. Not taking seriously the secretary's remarks, I did nothing in the matter. A week later Mr. Robert McIntyre, the contractor, arrived in Washington to resume work upon the bridge, and called to pay his respects to the secretary. The secretary said to him that they had put Jeff Davis's name on the bridge, and he (the secretary) wished he would cut it off 'With great pleasure,' replied the contractor, and the first work of Mr. McIntyre was to have one of the stone masons chisel off the name."

Cabin John Bridge is one of the show places in the vicinity of Washington. The bridge is 450 feet long. The span is 220 feet long and the thickness of the arch and the width of the roadway on top is 20 feet. Through the arch runs the conduit, nine feet in diameter. The arch is composed of 1,200 cubic yards of masonry, 852 cubic yards of concrete and 516 cubic yards of brick. The stone ring in the arch is of Quincy (Mass.) granite. The remainder of the arch is of Seneca sandstone and gneiss from Montgomery county, Md., the county in which the bridge stands. The height of the roadway above the stream is 100 feet and the cost of the structure was $254,000. The tablet is about 80 feet above the ground and 20 feet below the parapet of the bridge on the south face and west end.—[Baltimore America.

Compromise on Hearst.

What for a time had the appearance of a dangerous storm cloud over the proceedings of the International Typographical Union convention at Colorado Springs was dispelled yesterday by an agreement among the delegates upon a compromise substitute for a resolution indorsing and commending Wm. R. Hearst.

The Hearst resolution was offered by Delegate Roberts, of Washington, and commended the New York congressman for his efforts and achievements in behalf of organized labor. Opposition to the resolution was headed by Delegate McCulloch, of Omaha, who declared the measure a political one, and announced his unswerving opposition in making the International Typographical Union a tail to any man's political kite. The compromise substitute which it was agreed to offer during the session yesterday, and which was expected to pass without a fight, commends all editors who have exerted themselves in behalf of union labor, making incidental mention of the fight conducted by Mr. Hearst, with specific mention of the Los Angeles (Cal.) field.

The report of the committee on politics, which recommends that the printers join with all other branches of organized labor in supporting the men and political organizations that have manifested a friendship for labor and a favorable attitude toward legislation that it asks, was received by the delegates with enthusiasm, Mr. McCulloch, of Omaha, being outspoken in his indorsement of the move. He urged the delegates to remember their good intentions upon returning to their homes, and to go to primaries and elections determined to put in office, from aldermen to senators, men who can be counted upon to vote for labor legislation as well as talk for labor votes.

THE PEOPLE ALL

Cried, Give Us Newbro's Herpicide.

This word of late has been in everybody's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

SATURDAY EVENING, AUG. 18, 1906.

A COUP surpassing anything that has occurred in Wall street in many a year was made yesterday with the result that a band of speculators trailing in the wake of E. H. Harriman cleared something like $25,000,000 and brought practical ruin to hundreds of luckless "shorts." The coup was in the stocks of the Union Pacific and Southern Pacific railroads, both of which are controlled by Harriman, and its execution was in the unexpected announcement of a five per cent. semi-annual dividend on Union Pacific and a 2½ per cent. semi-annual dividend on Southern Pacific. Union Pacific common heretofore paid three per cent. and yesterday's dividend was the first ever declared on Southern Pacific common. For some time, it is understood, a score or so of insiders have been aware that these dividends would be declared, but the secret was kept inviolate and nothing leaked out to give the bears the slightest chance to save themselves. The insiders formed a pool and speculated upon about 300,000 shares in each railroad. Furthermore, in order to give time for the perfection of the pool, the dividend announcement, which should have been made after the meetings of the executive committees of the two roads, Thursday, was withheld until yesterday. Only statements regarding the condition of the two roads were made late Thursday afternoon, and these statements contained nothing to indicate that the dividends would be raised. The result of the coup is variously estimated. It is said that one pool cleared up $15,000,000 on Union Pacific and another $10,000,000 on Southern Pacific. Another statement is that Harriman alone cleared up $10,000,000. Among the persons said to have profited by the Southern Pacific rise is King Edward of England.

THE Atlanta, Ga., Evening News, which is owned by Col. J. N. English, jr., who is Gov. Terrell's chief of staff, yesterday afternoon editorially commended the South Carolina mob for lynching the negro Bob Davis in the presence of Gov. Heyward, and offers $1,000 reward for similar treatment of a negro committing an assault on a white woman in Atlanta. While but few people have any regrets concerning the fate of certain negro fiends, such utterances as the above are read with apprehension, as there is no telling where the mania will end. Recent events are significant, and the last occurrence in the presence of the executive of South Carolina shows that law and order are but little respected in certain parts of the country. It has been but a few months ago when a Tennessee mob defied the Supreme Court of the United States.

THE Interstate Commerce Commission is likely to be as unprepared for some features of its work in putting the rate law into effect as the railroads are to accept its provisions. It is little more than a week before August 28, when the law becomes operative and the existing commission of five men is replaced by the new one of seven, yet practically nothing has been heard from the new men. There will be a deal of work for the commission in putting the new law into operation, and numerous perplexing questions will confront the commission from the start. Three of the seven members will be entirely new, having no information about even the routine work, so that in the circumstances it is likely to take a long time for the commission to reach decisions.

IT IS stated that the profits of the North German Lloyd Steamship Company for the first six months of 1906 were 21,000,000 marks, against 19,000,000 for the corresponding period last year. This shows how much money there is in steamships, but still there are those in this country who insist that the government pay subsidies to American ship owners.

A CHARTER was granted yesterday by the State Corporation Commission for a railroad from Front Royal to Richmond, a distance of 150 miles, with a capital stock of from $5,000 to $50,000. If the projectors can build a railroad at such a low cost, they can secure contracts to gridiron the State.

From Washington.

Washington, Aug. 18

Both the State Department and the Chilean legation are still without news regarding the earthquake at Valparaiso. Because of the total absence of cable communication and the apparent cutting off of the land lines the opinion is growing that the disaster has been greater and more extended than at first reported. Several cables land at Valparaiso, but no one of them seems to be working. The recent disaster at San Francisco followed so soon by that in Chile has aroused some apprehension in the minds of some people as to the possibility of another outbreak of subterranean forces at a central point between these two places that might possibly work injury to the Panama canal. Prof. Hayes, chief of the division of geology of the geological survey, however, says there is no such danger. He points out that the so-called backbone of the North American continent ends in Central America before reaching the canal zone, while in South America it extends northwards as far as Ecuador and then branches off towards the West Indies. For this reason he thinks that if there is any connection between the disturbances at San Francisco and Valparaiso affecting the main backbone of the continent it will not be noticed at Panama which he considers to be out of the danger line.

Ambassador Leishmann at Constantinople has cabled to the State Department that the Sultan of Turkey, who has been ill for some time, has so far recovered that he was able to attend the Selamlik, or public prayers, yesterday, but that he is still to indisposed to receive visitors. Accordingly Mr. Leishmann has not yet been able to be presented to the Sultan in his new capacity of Ambassador. He reports, however, that he has been received in a very friendly fashion by the Minister for Foreign Affairs and that there has been no indication of any unwillingness or indisposition to receive him in his embassadorial rank.

Announcement was made at the Post-office Department today of the opening of bids for pneumatic tube service in the cities designated in a bill passed by Congress at the last session, from August 22 to September 19.

The new tariff convention between the United States and Spain will go into effect about September 1. President Roosevelt has already prepared his proclamation to that effect and it is at the State Department awaiting the pleasure of the Spanish government as to the date for simultaneous publication. This convention is not a treaty and does not therefore require ratification by the Senate. It is merely a commercial agreement entered into by the President under section 3 of the Dingley law reducing tariffs on certain Spanish goods imported here in return for the application of Spain's minimum tariff to American goods entering that country.

Details of the Naval review by President Roosevelt in Long Island Sound, on Sept. 3rd were made public by the Navy Department today. The ships will be anchored off the entrance to Oyster Bay in three columns. The Mayflower with the President aboard will steam through the lines and as it passes each vessel will fire a salute of 21 guns. In the display will be no less than forty naval vessels carrying 1,178 guns, 812 officers, 15,235 men together with five auxiliaries carrying 7,400 tons of coal, 2,500 tons of provisions, and 600,000 gallons of water.

By the blowing out of a superheater, one of the boilers at the plant of the Potomac Electric Power Company, about 7:35 o'clock this morning, the electric power which supplies most of the public buildings and car lines of the city was shut off for about two hours.

The State Department is in receipt of a dispatch from the United States Ambassador at Rome announcing that the Italian government has instructed its consuls in this country to refrain from further inspection of American meats intended for export to Italy. The consuls are directed that hereafter they need only satisfy themselves that the American meat products are properly stamped and labeled by this government in accordance with the regulations of the new inspection law. This is the first formal recognition by any foreign government of the new law, and it is expected to restore confidence in American meats, the exportation of which has materially decreased since the publication of the Neill-Reynolds report on the condition of the Chicago packing houses. It is probable that other governments will follow the course taken by Italy.

W. R. Spillman, superintendent of rural delivery, has been designated by the Post Office department as an additional delegate to the convention of second and third class postmasters and the Michigan postmaster's convention to be held at Detroit, beginning August 22.

Robert M. Larner, a well-known correspondent and member of the Gridiron Club, died here this morning after a protracted illness. He was the correspondent of the Charleston News and Courier and the Savannah News. He leaves a wife and two children.

Scheme Exposed.

That the Federal Commercial Investment Company of Philadelphia, which had a branch office in Washington in the Kellogg Building, on F street, was one of the boldest frauds ever perpetuated on an unsuspecting public was born out last night in the arrest of Jefferson T. Mason, a solicitor, formerly in the employ of the defunct company. According to a statement made by Mason last night at headquarters, the company was making arrangements to launch a gigantic swindle when it was closed by reason of the suicide of William G. Rothermel, treasurer of the concern, in Philadelphia, August 1. When the residence of Mason was searched last night by detectives this letter was found:

"Letter from George E. Graves, director of agencies of the Federal Commercial Investment Company, Philadelphia, to F. H. Taylor, the Washington agent of the company.

"Inclosed find list of people given me by a man that has dealt with them and says they are a 'cinch.' So go after them hard on stock of the new company. Their names are: Miss Alice Swann, 1916 G street, and her sister, Miss Lula Swann, of the same address, and Mrs. Gen. Flagler and her sister, Mrs. Williams, living at the Dupont. They are good for at least $10,000 each. So hit hard, and see them before I get back to Washington, and I will help you close them. I mail you under separate cover 1,200 blank bonds and a booklet on same. Read it over and study it carefully so as to be thoroughly familiar with it when we start. I expect to be over early in the week and see several parties whom I know personally, and can induce to purchase some of the stock."

The names in this letter are well known in this city.

Races for Lipton Cup.

Chicago, Aug. 18.—This afternoon at 2 o'clock, nine 21 foot cabin sloops will take the judges gun in the first of a series of three races for the Sir Thomas Lipton cup. For the four proceeding years the Lipton cup races have been the biggest yachting event in fresh water and this fifth annual struggle between the product of the finest naval atchitects in this country and Canada, promises to eclipse its predecessors in every particular. The course the yachts will cover is 16 miles in length, the time limit being four hours.

News of the Day.

President Roosevelt has appointed James S. Harlan, of Chicago, a member of the Interstate Commerce Commission.

Texas rangers have been sent to Brownsville, Tex., where 400 men armed with Winchesters threaten negro troops confined to their barracks.

Alexander P. Toncray, sixty-two years old, for more than thirty years a clerk at the Pension Bureau, and during the civil war a captain of the Tenth Tennessee Cavalry, dropped dead about 8:30 o'clock last night as he was entering the St. James Hotel, in Washington.

The dedication of the Greenwood Presbyterian Church, near Minnieville, Prince William county, will take place tomorrow. The building of this little church has grown out of the interest Miss Clara Clarke had in the children of the neighborhood. Tomorrow is the anniversary of her tragic death.

Commissioner Koiner, of the Department of Agriculture, who has been in Europe for several months, is expected to sail for America on Thursday of next week. He will go direct to Canada for the purpose of inducing people there to come to Virginia for farming lands in preference to remaining in that bleak country.

While Secretary Root and a party were returning from the Cascomus Ranch at Buenos Ayres yesterday, strikers hissed and stoned the train, breaking three windows in Mr. Root's car, and wounding the minister of agriculture in the neck. Several others of the party were slightly injured. The police are making an investigation.

The Grand Army of the Republic completed its fortieth encampment at Minneapolis yesterday and adjourned to meet in Saratoga, N. Y., in 1907. The encampment, after an exciting debate decided that a protest against the erection of a statue to Henry Wirz should be sent to Gen. S. D. Lee, commander of the United Confederate Veterans. The proposal to deprecate the action of Congress in abolishing the canteen from old soldiers' homes was laid on the table without debate.

Fifty men were yesterday entombed alive in the Clinch Mountain tunnel, at Clinchport, as a result of a cave-in. It is not known whether the men are dead or alive, but the work of rescue is being rushed as fast as possible. Air is being pumped in the tunnel by several pumps for a distance of 700 feet, and a large force of men is working in an effort to rescue the unfortunates before they perish, if they are not already dead. The cave-in occurred unexpectedly, and it is not known who is responsible. Clinchport is a small place in Scott county, between Bristol and Big Stone Gap, on the line of the Virginia and Southwestern. It is forty-three miles from Bristol.

THE EARTHQUAKE IN SOUTH AMERICA.

The details of the earthquake in South America last Thursday night are still lacking.

A tremendous shock was experienced in Valparaiso about 8 o'clock that night. As at San Francisco, the shock was followed by the outbreaking of many fires. The flames, extending from the Plaza Orden towards the north, have not yet been extinguished. Many houses have been destroyed, and nearly all of them are more or less damaged, either by the earthquake or by fire.

Business is at a complete standstill. The banks are closed. The gas supply is unavailable, and the electric-lighting system is completely destroyed. Consequently, the city at night is in darkness.

The greatest panic prevails among the inhabitants. Many families are fleeing from the city

Communication with Santiago de Chili is interrupted, and it is impossible to learn what has occurred there.

Many persons were killed and injured in Valparaiso. A number of the dead are buried in the ruins. The shocks continue, but are milder.

The shipping in the port was not injured.

The town of Los Andes and other towns in Chili are reported destroyed.

Shocks have occurred in Argentina, but no damage has been done at Buenos Ayres, and Secretary Root is safe.

The tide gauges at Honolulu showed a severe disturbance.

The United States felt the tremor of the great disturbance.

So violent was the disturbance that the needle was thrown off the recording sheet on the Hopkins instrument.

Thousands of lives have been lost by earthquakes in Chili in past centuries. In 1899 great damage was done by a tidal wave at Valparaiso.

Horrible Accident.

In attempting to board a car being pushed in front of a motor car near the baseball park at Norfolk yesterday afternoon Richard Land, a business man of Portsmouth, fell between the two cars and was instantly killed. His head was crushed completely off and his right shoulder was ground to a pulp.

The accident happend just after a double-header baseball game between the Norfolk and Parkersburg clubs which Land had witnessed. Hundreds of persons were filing out of the park to board trolley cars near the park gates. Land was one of the first out. A motor car, with the trailer ahead was coming from the car barns, a block away, to get a load of people. It was crossing the tracks of the Norfolk and Western Railway, which crosses the trolley line there. Land tried to board the trailer at the end next to the motor car. He missed his hold and was thrown between the cars, his head falling on the rails.

An instant later and the forward truck of the heavy motor car was on him, the wheels passing directly over his head. The body was dragged eight feet before the car could be stopped. The skull was found on the opposite side of the track from the body.

A throng of curious people at once packed around the body. Some of the more excitable people wanted to wreak vengeance on Motorman Dodson and cried for his arrest. He was arrested and later bailed.

Luckiest Man in Arkansas.

"I'm the luckiest man in Arkansas," writes H. L. Stanley, of Bruno, "since the restoration of my wife's health after five years of continuous coughing and bleeding from the lungs; and I owe my good fortune to the world's greatest medicine, Dr. King's New Discovery for Consumption, which I know from experience will cure consumption if taken in time. My wife improved with first bottle and twelve bottles completed the cure." Cures the worst coughs and colds or money refunded. At E. S. Leadbeater & Sons' druggists. 50c and $1.00. Trial bottle free.

Virginia News.

Christian Read, a merchant of Richmond, who went as a delegate to the national convention of Eagles, in Milwaukee, died there yesterday.

W. Dyer Wheeler, aged 72 years, a retired contractor and builder and one of the wealthiest residents of Charlottesville, died Thursday night of dropsy.

Sperryville, Rappahannock county, suffered great damage yesterday morning from a cloudburst. The water came down from the mountain in torrents, and all bridges in that section have been washed away.

A cast of the monument of Winnie Davis, the "Daughter of the Confederacy," which the sculptor, George Julian Zolnay made, may be exhibited in the Daughters of Confederacy building at the Jamestown exposition.

C. F. Holtzclaw, architect, of Hampton, filed a petition in bankruptcy yesterday. His liabilities are placed at $20,114.55. According to the petition, he has no assets, except $175 worth of household furniture and wearing apparel, on which he claims exemption.

Thomas A. Lynch, of Tazewell county, lately named as successor to Colonel Joseph Button as clerk of the Senate, appeared yesterday before C. Lee Moore, a notary public, and took the oath of office as clerk. Mr. Lynch has for several years been the chief assistant to Colonel Button and has proven himself a most capable and courteous officer.

Charters.

A charter has been granted by the State Corporation Commission to the Front Royal, Rappahannock and Tidewater Railway Company. The charter provides that the road shall run from Front Royal to Richmond, traversing a country which is not now readily accessible as a whole from that city and which is known to be the finest cattle and farming section of the State. The promoters are all residents of the "other end of the line," so far as the charter shows. The capital stock is placed at from $5,000 to $50,000, and the length of the road is to be just 150 miles. The charter allows for the building of a road from Front Royal to Richmond, passing through the following counties: Warren, Rappahannock, Madison, Greene, Albemarle, Culpeper, Orange, Louisa, Fluvanna, Goochland, Hanover, Henrico, Spotsylvania and Fauquier. The road is to pass through the city of Charlottesville. The following is a list of the incorporators, together with the two officers chosen: E. H. Miller, Front Royal; S. R. Miller, president, Front Royal; John I. Miller, second vice-president, Washington, Va.; William J Browning and William L. Jones, Flint Hill, and Hugh E. Naylor and W. L. Keyser, Front Royal.

A charter has also been granted to the Purcellville Farmers' Supply Company, Purcellville, President, Frank P. Wilson; vice president, H. W. Davis, J. W. Gregg, secretary, all of Purcellville. Capital stock: Maximum, $15,000; minimum, $1,000.

Juvenile Desperadoes.

With a coolness and nonchalance that amazed the police, Fred Peterson, William Meares, Walter Westwood and Frank McAuliffe, four youths still in their teens, on Thursday night confessed that they are the quartette that committed the series of hold ups which culminated in the killing of Fred Mullineaux on the ocean boulevard at San Francisco last Sunday night.

Peterson, who is 17 years old, admitted that he fired the shot which killed Mullineaux when the latter resisted robbery. McAuliffe, aged 18 years, was arrested Wednesday, and, after being subjected to a most severe examination, broke down, admitted he was one of the quartette and gave the names of the other three.

Peterson Thursday night told in minute details of the robbery of four persons an hour before the murder of Mullineaux, and a holdup on the boulevard the night previous.

Westwood, the acknowledged leader of the youthful gang, is but 16 years of age, and resided with his mother and stepfather, Patrick Ryan. He admitted that he was the gunholder in the other robberies and that it was Peterson's turn when Mullineaux was held up, Meares is 18 years of age.

Soldier Killed by Car.

James Terry, 83 years old, a member of the Seventeenth Coast Artillery, stationed at Fort Washington, died at the Emergency Hospital in Washington yesterday forenoon as a result of injuries received late Thursday night when he alighted from a Seventh street car at Pennsylvania avenue northwest.

With two other members of his company he was riding on a southbound car and, just after the car crossed the avenue tracks he arose from his seat and jumped off. As he did so he was struck by a northbound car, which was running at a good rate of speed. He was struck in the face and dropped into the fender. When the car was stopped he was unconscious, blood was gushing from his mouth and nose and his face was badly injured. He was taken at once to the hospital, but did not regain consciousness. His skull was fractured.

The northbound car was filled with a crowd returning from excursion trips down the river, and the accident was witnessed by many of them. All distinctly heard the crash of the body against the car.

Death from Insect's Bite.

While in swimming in Gwynns Falls near Baltimore last Sunday night Otto Otto Herzer, jr., the 13 year old son of Mr. Otto Herzer, of Baltimore, was bitten on the leg by an insect, and died from the effects of the bite Thursday night. At the time he was bitten the little boy was in swimming with several of his companions, and although he felt a stinging sensation in his leg, he paid no particular attention to it until Monday night, when he complained to his parents of being sick, and it was noticed that his leg was badly swollen. Dr. Dill was summoned, and, after an examination of the boy's leg, stated that he was suffering from blood poisoning caused by bite on his leg. The little boy rapidly grew worse, and expired Thursday night about 6 o'clock.

Today's Telegraphic News

The Earthquake in Chili.

London, Aug. 18.—The same dearth of information from Chili in regard to the earthquake which has wrought so much havoc in that country, especially as feared in Valparaiso, prevails today, and London is practically without news of the situation.

A message was received this morning by the Bank of Tarapaca and Argentina from Valparaiso stating that the bank building there had only been slightly damaged. Beyond this, fresh news is wanting. The bank people are inclined to the belief that the disaster was not as bad as at first reported.

New York, Aug. 18.—The business section of Valparaiso, Chili, is almost destroyed, and the fires which broke out following the earthquakes are still raging. The residential section of the city has also suffered severely, and many lives have been lost. This is the news that comes in a brief dispatch received in this city today, direct from Valparaiso.

Another dispatch received here from Lima, Peru, says that nearly all the houses in Valparaiso are damaged, either by the earthquake or fire. According to this dispatch the shocks in the city continue, but they are milder. Flames had not been checked at the time the message was sent last night, and further loss was expected.

London, Aug. 18.—Heavy loss of life and immense damage to property has resulted from the earthquake at Valparaiso, according to a message received here today from the agents of the Pacific Steamship Company in the ruined city. The dispatch adds that the company's offices have been partially wrecked, but its floating property is undamaged.

Another dispatch received by a London business firm states that two squares at one point were wrecked and that the buildings on several avenues were destroyed.

Berlin, Aug. 18.—The first news from Iquique, Chile, since the earthquake is contained in a private telegram received in Bremen, which states that the city was not harmed by the shock which ruined Valparaiso. A message to the bank from Valparaiso says half the city from the Almendral to Calle Bellavista has been destroyed. In this section are located many business and warehouses as well as numerous private houses.

The Disturbances in Warsaw.

St. Petersburg, Aug. 18.—To quell the disturbances in the district of Warsaw, as a result of which fifty or more persons have been murdered during the last few days, reinforcements have been ordered there. Today orders were issued for the concentration in Warsaw of five battalions of troops and more will be dispatched there should these not be able to subdue the lawless element.

A special conference of the ministers has been summoned for today to discuss the conditions in Warsaw. The ministers are expected to advise the Czar that it is necessary to appoint a strong reactionary like the former Minister of the Interior, Count Ignatieff, Governor-General of the disturbed district, with powers of a dictator, before quiet can be restored.

The present Governor General Skalon is terror stricken by the revolutionists and keeps away from the danger zones. He leaves the direction of everything to his subordinates.

Peasants of the villages in the Astrakhan province, bordering on the Caspian Sea, have adopted a plan of their own for obtaining the land which is at present the desire of all the agricultural classes throughout the empire. Without waiting for the government to act, they have accordingly seized the land, driven out the proprietors and are prepared to defend their new possessions against the authorities. Troops are now being dispatched to the region to quell the uprising and serious fighting will probably result. The peasants are now entrenching themselves in various strongholds prepared to defend themselves against the troops which have been dispatched against them.

St. Petersburg, Aug. 18.—Eighteen mutineers who were engaged in the rebellious outbreaks at Reval were executed this morning. The government is proceeding undaunted in its programme of inflicting the death penalty on members of the military or naval service who participate in uprisings and the executions today were carried out without regard to the effect they might have in arousing the soldiers.

Entombed in a Tunnel.

Bristol, Tenn., Aug. 18.—The south end of the Clinch mountain tunnel, which is being driven through the mountain by the South and Western Railway Company, caved in yesterday, entombing probably fifty men, most of whom are natives. The tunnel is near Speers Ferry, Scott county, Virginia. There is much distress as a result of the cave-in, and relatives of the entombed are said to be frantic. The Construction Company is pumping air in the tunnel in the hope of saving any of the men who may be alive. The workmen were 700 feet from the entrance of the tunnel. The rescue work is being rushed with all possible speed, but there is said to be much dirt and stone to be removed before the men can be reached.

Bristol, Tenn., Aug. 18.—It is now said that but fifty persons are entombed in the tunnel of the South and Western Railroad. Only two are known to have been killed.

Purchased McCall Estate.

New York, Aug. 18.—Abraham White who first came into prominence in connection with the government bond issue under Secretary Carlisle, today eloped a contract for the purchase of the entire estate of the late John A. McCall, at Elberson, N. J., known as Shady Lawn. The property covers 58 acres of land and all the buildings thereon, entirely furnished. The price paid is understood to be $500,000. The scheme of organizing the property into a social club, was abandoned a short time ago. Mr. White is said to have made his purchase out of profits derived from the rise in Union Pacific.

THOMAS BURROUGHS, P. M.

Banquet in Honor of Secretary Root.

Buenos Ayres, Aug. 18.—Thanks for the warm friendship displayed by the United States for Argentina, and praise for the example the great republic has given the world was the keynote of a notable speech delivered last night by former Minister Drago at a banquet given by the Chamber of Commerce in honor of Secretary of State Root. The speaker also expressed the belief that the day is approaching when closer relations will be established between the states of the American continent. Fully 400 guests, representative men of the banking and commercial interests of the country, attended the banquet. When Senor Drago proposed the health of the United States as "the noblest, greatest, and most democratic of nations," the guests responded with evidences of the greatest cordiality for Secretary Root and his country. Referring to the now famous Drago doctrine declaring against the collection of public debts by force of arms, Senor Drago said it was inspired by a desire to protect the American states from real and threatened dangers and maintain their integrity against hostile aggressions by European countries. The doctrine, if accepted, is calculated to make conquest under the guise of collection of claims impossible. Its aim, he declared, is identical with that of the Monroe doctrine. He referred to President Roosevelt as a man "whose transcendental initiatives had made his name illustrious." Turning to Secretary Root, he spoke of him as "the greatest representative of solidarity," and said Argentina felt honored by his presence. The speech was vigorously applauded.

The applause which answered Senor Drago's address was renewed when Mr. Root rose to speak. The United States, he said, has never employed her naval and military forces for the collection of debts contracted by a foreign government and never will do so. He favored arbitration and mediation as the means of settling disputes. These matters are in the hands of the people who had been inculcated with a spirit of humanity and consideration for the rights of others, so that governments could never find an excuse for entering upon a war policy. In conclusion, he spoke in the highest terms of Buenos Ayres, its people, institutions, and its splendor, and thanked the people for their hospitality. At the conclusion of Mr. Root's speech, the ladies who crowded the galleries of the opera house, where the banquet was held, showered the banquet table with flowers and clapped their hands vigorously.

Two Men Shot.

New York, Aug. 18.—James Murtha, aged 20, a pugilist, was probably fatally shot, and James Commiskey, a brakeman, was shot in the shoulder early today in a dance hall in the rear of a saloon at No. 490 Eighth avenue. William Kellock is under arrest charged with the shooting. He appeares to be a drug fiend, and disclaimed all knowledge of the firing. The victims were strangers to him. Eleven nicks were found on the revolver, and the police think he may be a "bad man."

Grand Worthy President Elected.

Milwaukee, Wis., Aug. 18.—The tellers of the Fraternal Order of Eagles convention announced this morning that the balloting had resulted in the election of Edward Krause, of Wilington, Del., for Grand Worthy President, over Henry Daves, of Cleveland, present holder of that office. Theodore A. Bell, of Napa, California, was elected Vice president A. E. Pattridge, Kansas City, Secretary Frank E. Hering, South Bend, Ind., Treasurer.

Tidal Wave at Honolulu.

Honolulu, Aug. 18.—A tidal wave twelve feet high swept over a portion of the west coast of the Island Mauna last night and caused a great deal of damage. So far as learned, no lives were lost. The wharf at Port Malstea was entirely washed out and buildings at the landing partially wrecked. Some of the small vessels in the harbor were damaged. It undoubtedly was caused by the Chilian earthquake.

Fire and Explosion.

Orange, N. J., Aug. 18.—An early morning fire, starting in an explosion which shook the entire neighborhood, destroyed the hat factory of Frederick Cummings' Sons & Co., on south Jefferson street, causing a loss of $300,000 and throwing hundreds of persons out of employment. There is mystery as to the origin of the fire and investigation is being made.

Reported Arrest of Stensland.

Chicago, Aug. 18.—The police this afternoon received a dispatch stating that a man answering thoroughly to the description of Paul O. Stensland has been arrested at Midway, British Columbia. The authorities place little credence in this report.

Steamship Ashore.

Hamburg, Germany, Aug. 18.—The Hamburg-American line steamer Pretoria, Captain Scotter commanding, due here today from New York, went aground on Finkenwarder Island, in the Elbe. Assistance has been sent to the vessel.

Suicide.

Harrisburg, Pa., Aug. 18.—W. R. McClure assistant custodian of the post-office in this city, committed suicide this morning, without known cause by inhaling chloroform. His wife found him dead when she returned from market.

Won $50,000.

Saratoga, Aug. 18.—The Rainey Brothers, millionaires from Cleveland, after losing heavily all season, made a big coup on Healsip, when, it is said, they won $50,000.

Mary Harriet Van Brunt, widow of Peter F. Van Brunt, died this morning at Red Bank, N. J., of bronchitis, after an illness of ten days. She was a Miss Thomas, of Perth Amboy, previous to her marriage, and was 72 years old.

Cuban Revolutionists.

Havana, Cuba, Aug. 18.—Various small bands of revolutionists are reported to be gathering in the province of Pinar del Rio, and there are many rumors afloat of uprisings against the government. A detachment of rural guards last night encountered one of revolutionary bands, consisting of twenty men, while it was encamped on the Hondo river. Shots were exchanged between the guraeles and the revolutionists, before the latter fled. No one was hurt, however.

American Liner Wins.

New York, Aug. 18.—What appears to have been a race between the American line steamer New York and the Cunard line steamer Etruria, the former from Southampton, and the latter from Liverpool, ended this morning, the laurels going to the American liner, which was sighted southeast of Fire Island 41 minutes ahead of the Cunarder.

New York Stock Market.

New York, Aug. 18.—The stocks of the Union and Southern Pacific boomed again on the stock exchange this morning, and rose to new high records on heavy purchases. The profits of Edward H. Harriman and his friends, together with Sir Edward Cassell, who has been doing a little business in Southern Pacific for King Edward, were increased by several million dollars this morning by the advance in both stocks. King Edward's flier is said to have netted the royal pocket book many thousand dollars. The bear panic of yesterday when the dividend announcements were made, was in evidence. Several large shorts in both stocks were unable to cover their lines yesterday and made their bids at the opening of the market. In consequence there was wide openings in both stocks. Union Pacific opened with purchases of 30,000 shares from 181½ to 185. This was an advance of 6½ points over last night's close. Harriman's profit on the advance today is estimated at over four millilion dollars. He is said to have cleared ten million dollars yesterday on the lines of stocks he has been accumulating for some time in anticiprtion of the dividend declaration which only he and his friends knew about. Trading in Union Pacific was exciting and en es were long ... long strings of stocks came out with p... varying from 183 to 185, with quotations sometimes a point apart. Southern Pacific opened with purchases of 35,000 shares from 89 to 90¾, an advance of over three points from yesterday. Despite large profit taking the opening prices held well, and enthusiastic bull operators went about the floor of the exchange and predicted 220 for Union Pacific and 105 Southern Pacific.

Buying orders in large volume came from many sources. Commission houses reported that the public was in the market on a large scale, larger than at any time in several years. There was urgent covering of shorts all around the room, and prices in almost everything traded in made material advances during the first hour.

Union Pacific after opening 3 points higher rose to 185. Southern Pacific rose to 90¾. Pennsylvania made a gain of 3½ to 145¾. Lead rose 1¾. Talk on the floor was bullish and reports were freely circulated of sharp advances on many stocks. B. R. T. was exceptionally heavy. Government bonds unchanged.

The stock market closed strong with the exception of Union Pacific, which was down 1 point from the top, while prices averaged about at the level of the day.

The Insurance Commissioner.

The opinion of the Court of Appeals in the case of Joseph Button against the State corporation commission, in which, at a recent special term, a writ of mandamus was awarded commanding the Corporation Commission to administer the oath of office to Commissioner Button, has been filed in the clerk's office of the court in Richmond. Judge Whittle, who wrote the opinion, confined it to a discussion of the constitutionality of the act of the general assembly providing for the election of the commissioner of insurance by the legislature, no allusion being made to the contention of the corporation commission that, acting in a ministerial capacity in administering the oath, it had no right to pass upon the constitutionality of the law.

After setting forth the section of the constitution which, the commission contended, conferred upon it the authority to appoint the insurance commissioner, the opinion states that there are certain fundamental principles which must not be lost sight of in considering the constitutionality of the act.

"In a government such as ours, of reserved powers," it said, "the legislative department acknowledges no superiors except the Federal and State constitutions, and its authority to enact laws, unless forbidden by one or the other of these instruments, in express terms or by necessary implication, is paramount."

All America for Arbitration.

A committee for the Pan-American Congress at Rio de Janeirio on Tuesday presented a resolution urging all countries there represented to send delegates to The Hague Peace Conference instructed to make every effort for the adoption of a general arbitration convention. The report of this committee was adopted by acclamation.

The committee appointed by the last Pan-American Conference, which was held in Mexico in 1902, reported that the proposed intercontinental railway extending from New York to Buenos Ayres, a distance of 10,400 miles, had been found to be entirely feasible. This was based largely on the investigations made by Charles M. Pepper, who, as a special commissioner, went over the South American surveys. The committee finds that the cost would be $32,000 a mile, but that an expenditure of $185,000,000 would insure the completion of all the unconstructed links. This is thought to be not beyond the resources of the dozen republics interested. The committee says the plan has been indorsed by such men as Andrew Carnegie, A. J. Cassatt and Thomas F. Ryan. The actual mileage not yet provided for in private or governmental projects is 3,659.

At the home of Greenville Chapman near Winchester yesterday a hen was sitting on eggs which were in a box leaning against a cherry tree, when a bolt of lightning passed down the tree splitting the box, killing the hen and all the chickens in the eggs, with one exception. This one little chick, which was literally stripped of its shell by the lightning, is living and healthy.

Alms for Alexandria, Va ?

The Insurance Review of New York of August 9 contained the following remarkable article: "The historic old town of Alexandria, Va., has now joined the ranks of those who pass the alms basin. It appears that the Chief Engineer of its Fire Department only received a salary of $50 per annum, and, according to the letter he is sending to insurance companies, including those not represented in Alexandria, it does not enable him to purchase another horse, since the three he has lost were purchased by himself. He states in his missive that his present quadruped is disabled, necessitating the purchase of another. (He does not say quadruped; that is just put to add interest and style) The chief draws a pathetic picture of the situation, but unless he fares differently from other applicants for aid he is not likely to draw anything else."

Case to be Reopened.

The case of Edward Julius and Frank Baltimore, two colored men, who were fined $10 each by Justice Pelton in the Police Court yesterday morning for disorderly conduct in a Fayette street saloon, is to be reopened next week.

An application will be made for the reopening of the case of a young white man who was fined $25 by Judge Pelton yesterday for being drunk in the street and for trespass upon railway property. It is said that should the application be denied habeas corpus proceedings are likely to follow.

Washouts on Railways.

The rains of the past few days have caused trouble to railways running into this city. There was a serious washout on the Chesapeake and Ohio road between Gordonsville and Charlottesville yesterday, which delayed the running of trains for a time.

People who arrived here by Southern Railway trains say there was what appeared to be a cloudburst between Gilbert's and Profit's, and that in some places the cars passed through water three feet deep.

Scarcity of Ice.

For the third time this summer a shortage of ice exists in Washington. The schooner Henry O. Barrett passed by this city yesterday from Maine with 2,000 tons for the American Ice Company of that city, but as fast as it was removed from the vessel it was placed on wagons and delivered to customers. The city must depend on the output of manufactured ice, which, it is said, will supply only about one-half of the demands until the arrival of other schooners with natural ice.

Disorderly Negroes.

Several disorderly negroes caused some apprehension to quiet people who were on King street extended near the new union depot late yesterday evening. Some ladies who were in buggies became alarmed and returned to this city. One of the negroes, who seemed to be looking for trouble, was flourishing a pistol. The darkeys, it is said, live in Fairfax county, a short distance from this city.

The Market.

An average Saturday's supply of country produce was in market this morning. There was an abundance of tomatoes and prices were weaker. Lima beans were also more plentiful and were sold at slightly lower rates from those which prevailed last week. Cantaloupes were in abundant supply. Some were of the desirable varieties, but many were of the ordinary grades which lacked sweetness.

Fined Thirty-five Dollars.

William Stafford, colored, was arrested yesterday by Officers Smith and Nicholson charged with assault on Mary Stafford and with selling liquor without a license. He was brought before Justice Pelton in the Police Court this morning and fined $10 for the first offense and $25 for the second.

The Steamer Woodbury.

The ferry steamer Woodbury, Capt. Wm. Davis, will, it is expected, resume her place on the Washington ferry line tomorrow morning. The steamer has been off the route for several days while repairs to her rudder were being made. These will be completed tonight.

Personal.

Rev. J. M. B. Gill, the new rector of All-Saints' Episcopal Church, has arrived in the city and taken charge of his work. He is much liked by his new congregation. Mr. Gill, who is unmarried, is a native of Petersburg. He is a graduate of the Episcopal Seminary at Alexandria.—[Norfolk Ledger.

Miss Laura Lescallet who has been visiting relatives in the city has returned to her home at Glendale, Maryland.

Miss Rosie L. Sherwood has gone to Woolsey, Prince William county, for a week.

Mrs. Wm. A. Moore, with her daughter, Mrs. Piser, has gone to the latter's home in New York for a visit.

Mr. and Mrs. F. G. Swaine are at Round Hill for a short visit.

Mrs. B. W. Jamieson has gone to Winchester to spend a few weeks.

Rev. C. E. Woodson and family, who have been visiting friends in this city, left today for Warrenton to spend a month, during which time Mr. Woodson will have charge of the Episcopal Church there.

The many friends of Mrs. Stump, wife of Rev. J. P. Stump, will regret to learn that she is suffering from indisposition. She entered the Alexandria Hospital a few days ago, but yesterday returned to her home at Luray.

Officer Gill who had been confined to his home during the past two weeks by sickness, is now able to be out again.

Rev. John R. Tizer, of Williamsport, Pa., will preach at the First Baptist Church, tomorrow, both morning and night. After the evening service the ordinance of baptism will be administered.

Mrs. E. T. McVeigh is visiting friends in Warrenton.

It was reported that Rev. J. P. Stump would preach at the M. E Church South tomorrow, but on account of the illness of his wife, who had to be taken home, he will not be able to do so. Rev. Mr. Borrell will preach instead of Mr. Stump.

Dr. "Jack" Burke, of the University of Virginia Hospital, left last evening to spend a few days at the White Sulphur Springs. Dr. Hew McMurdo will take his place on the hospital staff during his absence.—[Charlottesville Progress.

Mrs. Walter Scott Passmore, who had recently suffered from a severe indisposition, is able to be out again.

Dr. and Mrs T. Marshall Jones have returned from Atlantic City.

Mr. W. L Craven, janitor of the City Hall, has gone to Leesburg to spend a few days. His official mail will be forwarded to him.

City Sergeant Cox is spending a short vacation at Atlantic City.

Mr. Reginald Tatsapaugh and Mr. Samuel Pallant have returned from Colonial Beach after a pleasant outing of several weeks.

Mr. and Mrs. F. M. Hill have returned from a sojourn of two weeks at Colonial Beach.

Police Court.

[Justice Julius Pelton presiding.]

The following cases were disposed of this morning:

William F. Stafford, colored, arrested by Officers Smith and Nicholson charged with assaulting Mary Stafford and with selling liquor without a license, was fined $35.

A white man, arrested by Officer Garvey for improper conduct, was fined $10.

William England, arrested by Officer Jones charged with assaulting Mary Belmont, was fined $10.

Sallie Hall, arrested by Officers Bettis and Ferguson charged with assaulting Emma Clements, was fined $20.

James Bradley, arrested by Officer Nicholson charged with being drunk on the street, had his case continued.

William Smith, charged with contempt of court, was fined $5.

Elephants for Luna Park.

Several elephants which are to be exhibited at Luna Park next week are expected to reach this city tomorrow via the Baltimore and Ohio Railroad. They will be led through this city on their way to the resort. Luna Park, which has been a decided success from the day it was opened, grows in popularity, and continues to be visited by thousands. It is a pleasant retreat, especially at the close of the day, and many visit the resort nightly to listen to the enchanting music and to participate in the amusements offered.

Accident to a Minister.

Rev. Mr. Council, Baptist minister at Del Ray, Alexandria county, was the victim of a painful accident at the St. Elmo station of the electric railway early this morning. Mr. Council, who is 85 years of age, was waiting for a train when he swooned and fell. His face came in contact with the railway track and he was painfully cut and bruised. He was later placed on a train and brought to this city where Dr. Smith rendered surgical assistance.

The Excursion Season.

There are about two weeks of the excursion season remaining. The steamers passing up and down the river still carry large numbers of passengers, some returning to their rural homes, while others, who have passed portions of the summer amid nature's surroundings, are coming back to the cities to resume the active duties of life. After the first few days of September river traffic, which is large during the summer, will lapse into its normal condition.

Court Adjourned.

Judge Barley today adjourned the Corporation Court for the August term, and that court will not meet again until September 10. It is customary to dispense with the August term, but as there was some business to be transacted Judge Barley held a short term this week.

LOCAL BREVITIES.

There were light showers of rain this evening.

William Brookes, a young colored, man, died suddenly at his home on on south Fairfax street yesterday.

The strained relations existing between labor and capital over the plumbers and building trades of Washington continues.

Frank, the infant son of Mr. William Hartbower, died at his parents' residence in Fairfax county, near this city, last night.

Colored Seventh Day Adventists have placed a tent at the southwest corner of Queen and Fayette streets, where services are held nightly.

The Catholic Church at Colonial Beach will be dedicated tomorrow. A large number of persons from this city will attend the services.

It is said that Mr. C Jones Rixey, of Alexandria, intends to establish a national bank with a capital stock of $25,000 at Rosslyn in the county.

The Old Dominion Baseball Club of this city will play the champion colored team of Virginia on the grounds at Colross next Tuesday afternoon at 4 o'clock.

Charles Murray, a well-known colored resident of the First Ward, died suddenly this morning at his home on south St. Asaph street. The deceased was a sufferer from heart trouble.

At the last meeting of the county board of supervisors a resolution was passed putting in effect, September 1, the law on the subject of automobiles, passed at the last session of the general assembly.

We have received from Prof. J. L Jarman, president of the State Female Normal School, at Farmville, a copy of the catalogue of that school for 1906. The school has a fine corps of instructors, is one of the best managed institutions in the State, and the attendance last year numbered 758.

Money Lenders.

The "money sharks" are liable to become entangled in the meshes of the law some of these fine days. What is more to the point, they stand to lose on every loan they have made since the beginning of the present license year. Under what is known as the Machen law, the money lenders are required to get a license and to give security. The bond has to be filed with the clerk of the Corporation Court. So far, of all the money lenders in this city only one has complied with the law. It may be of interest to note that loans made, since the new law went into force, cannot be collected by law unless the money lender has actually gotten out license as money lender. That is section 7 of the act. The money lenders are still doing business in this city, and information at the office of the clerk of the Corporation Court is that one firm has given bond as required.—[Richmond News Leader.

Postoffice Robbed.

Burglars visited the postoffice at Falls Church early this morning, blew open the safe and looted it of its contents. They left no trace of their identity. The amount of the robbery is not known.

Frightfully Burned.

Chas. W. Moore, a machinist, of Ford City, Pa., had his hand frightfully burned in an electrical furnace. He applied Bucklen's Arnica Salve with the usual result: "a quick and perfect cure." Precipitated Into a Basement.

One-inch planking covering the cellar area on Broad street, in front of Murphy's Hotel in Richmond, gave way under the combined weight of four men tonight, precipating all of them 12 feet to the basement below. All of the men sustained more or less serious injury. The grating over the area had been taken away for purposes of repair and the whole covered with planking, but there was no light displayed to warn pedestrians of the danger. City Sergeant T. J. Wright, Charles Keller and Ham Reid were standing over the frail support when Capitol Policeman Thomas Haines approached. As soon as his weight was added to that of the others the planking gave way. James Seehnose, unaware of the danger, approached in the dark, and walked in upon the others. He landed on top of Haines, who is a very heavy man, and escaped with minor bruises. Wrenn suffered a broken arm. Kohler sustained a sprained ankle and minor bruises. Reid also suffered a sprained ankle. Haines left ankle is sprained.

Sad Fatality.

The third death in the family of Wm. A. Fidler, of North Brucetown, Frederick county, within two weeks from diphtheria took place yesterday, when his daughter, Annie Fidler, aged 12 years, expired. Mrs. Fidler died from diphtheria on August 6 and their eldest daughter, Lilly Fidler, 16 years old, died the following day. Four children were left with the disease and were recovering when Mr. Fidler himself was taken ill with it, and since then the children have had no nursing except three visits daily by a physician. Persons in the vicinity of Brucetown have become excited and express fear of entering the house. Mr. Fidler is a mental and physical wreck, and it is feared he may not recover. The body of the third victim was buried Thursday night in the Southern Methodist Church graveyard at Brucetown. No religious services have been held over any of the bodies.

FINANCIAL

See To It

That your money is deposited with this strong, progressive and wide awake institution. We offer you service that can only be obtained through such perfect organization as characterizes the management of this institution and give the best and most vigilant attention to all business entrusted to us. One of the surest avenues to success is to open a bank account and learn to save systematically—make a deposit every week—small though it may be—YOU SHOULD SAVE THE SURPLUS. Don't put it off until you are older, but commence now—TODAY—for you are never poor after you make up your mind to save part of your earnings every week, and the end of each week will find you better off and climbing steadily to financial success. We pay 3 PER CENT. INTEREST compounded in our Savings Department and our treatment of both small and large depositors is uniformly courteous. We solicit the accounts of individuals, firms and corporations, and promise courteous consideration and the very best terms consistent with sound banking methods. We believe it would be to your advantage to call and talk this matter over with our officials, and we invite you to do so.

Rolling on a Barrel.

The public in general and life savers in particular should be warned of the danger and folly of rolling on a barrel the bodies of apparently drowned persons. This process has never yet helped to resuscitate, though it has undoubtedly killed many half drowned persons. The idea that it "pumps out" the water is entirely fallacious. In the first place, no water enters the lungs of a drowned man till he has been absolutely dead for many hours. In the second, the removal of water from the stomach is quite a secondary consideration compared with the importance of re-establishing the action of heart and lungs, and rolling a body on a barrel is about the surest way of preventing both heart and lungs from resuming their normal functions. Artificial expansion and contraction of the chest by alternately stretching the arms above the head and compressing the chest with them is the correct first aid to the apparently drowned, but never can rolling on a barrel be anything but deleterious.—New York Times.

Pretty Thin Coffee.

During one of George Graham Vest's campaign tours in the early nineties it was necessary for him to sojourn overnight in the town of St. Charles. The best hostelry the place afforded was poor enough, and at breakfast Vest was especially put out by the stuff that was placed before him for coffee. After having sampled the beverage Vest, with a frown, called for the proprietor. When that individual appeared the senator asked, with a wave of his hand toward the offending liquid smoking innocently before him, "Sir, what is this stuff?" "Coffee," meekly replied the proprietor, somewhat taken aback. "Coffee!" repeated Vest in fine scorn. "My friend, I could insert a coffee bean in my mouth, dive into the Missouri river, swim to the town of Alton, Ill., and I'll guarantee that one could bail up much better coffee than this, sir, over the entire route!"

How to Detect Base Coin.

Several cases of making and circulating counterfeit coin have been heard at the central criminal court during the last few days, and at the conclusion of one of the cases the foreman of the jury asked the authorities if they would take a suggestion from twelve business men who during the year had to deal with considerable sums in silver coin. There was, he said, a most simple test for the detection of base coin. It was to sharply cut the milled edge of a good coin against the milled edge of the suspected coin. If spurious the metal would almost immediately begin to shave off. After making a personal test the common sergeant said he quite agreed with the suggestion of the jury as to the usefulness of the test and said it ought to be made known.—London Queen.

The Sachem of Pokanoket.

The sachem of Pokanoket, known in the history of New England as King Philip, was the youngest son of Chief Massasoit. His Indian name was Pometacom, but his father was friendly to the English colonists, who gave him the name of Philip. His warfare upon the settlers some fifty years after the first landing of the pilgrims at Plymouth rock harassed them greatly, but Philip was at last killed at New Hope, and the war thus ended. The title of king corresponded better with his English name than the Indian title of sachem would have done.

Danish English.

The following advertisement is from a Danish paper: "The hotels charmingly situation, surrounded of a nice garden the good cuisine, the kindly accommodation with moderate charge and good conveyances with easy occasion for salmon and trout fishing, the ascending of the surrounding mountains has done this place well known and praised of all travelers. N. B.—The Landlord is spoken English very good."

The Siege of Lisbon.

When Lisbon was besieged by the Spanish in the fifteenth century such Portuguese as were captured were maimed. Their eyes were put out, their noses, lips or ears were cut off, their finger nails or fingers amputated, and in this miserable plight they were sent back into the city with the announcement that when it was taken all the defenders would be similarly treated.

Refused the King.

Henry VIII. had six wives. The most extraordinary ambition was displayed by the fair sex in general to obtain the dangerous distinction of being his queen. One instance alone is quoted of his meeting with a refusal and that was on the part of a witty Duchess of Milan, who replied to his offer that she unfortunately had but one head and could not afford to lose it.

Real Mortifying.

"George kissed me last night," she said, "and I'm so mortified that I hardly know what to do."

"Why, do you regard kissing before you are engaged as a disgrace?"

"No, but in my surprise I forgot to make a pretense of fighting him off for a while."—Chicago Record-Herald.

A Healing Gospel.

The Rev. J. C. Warren, pastor of Sharon Baptist Church, Belair, Ga., says of Electric Bitters:" "It's a Godsend to mankind. It cured me of lame back, stiff joints, and complete physical collapse. I was so weak it took me half an hour to walk a mile. Two bottles of Electric Bitters have made me so strong I have just walked three miles in 50 minutes and feel like walking three more. It's made a new man of me." Greatest remedy for weakness and all Stomach, Liver and Kidney complaints. Sold under guarantee at E. S. Leadbeater & Sons' drug store. Price only 50c.

Prof. Tyler, of Amherst college, said recently: "A man can live comfortably without brains; no man ever existed without a digestive system. The dyspeptic has neither faith, hope or charity." Day by day people realize the importance of caring for their digestion; realize the need of the use of a little corrective after overeating. A corrective like Kodol For Dyspepsia. It digests what you eat. Sold by W. F. Creighton & Co., 401 Kingstreet.
